

**Kenya Mission Trip - University and Graduates Group**  
**May 08th to May 19th, 2012**

***Our Church beloved university and graduated group went on a mission trip to Kenya where they spent few days in Nairobi and Maseno. Visited Raha Kids; a wonderful place for orphans. Stayed at the Coptic Mission Compound, had the opportunity to serve kids, youth, families and seniors through organized spiritual days at different churches, home visitations and one on one talks. This Short-term mission trip was an awesome opportunity for personal spiritual growth. It left a lasting impact on the community as well as on the individual missionaries. The youth group and councilors were very effective in organizing the trip. Through their dedication to prayer, quiet time, bible study and tireless efforts in preparing stories, sermons, songs, crafts, games and social activities, they were able to reach out to many people and touch their lives. They enjoyed the wonderful scenery when climbing hills early in the morning prior to sun rise for quiet time with God; also, through the amazing nature through day trip safari.***

***Partnership with the local Coptic Kenyan churches, and a focus on spiritual matters, we have seen an awesome work of the Lord accomplished in Kenya and in our own church group. By joining those who are already reaching out and being used by the Lord, we have seen hurting and hopeless people of Kenya make decisions for Christ and get involved in their local churches. It is amazing to see what the Lord can do through a Christ-centered organization.***

***In partnering with Our Coptic Church in Kenya, we have returned home from mission trips with missionaries whose lives have been changed by being used by the Lord in awesome and effective ways.***

***We enjoyed being in God's will. He blessed us as He used us to minister to people. Seeing God move was wonderful. I loved people getting closer to God.***

***The trip changed our lives. Those two weeks seemed to fly by as we shared the Gospel with the children and families of the area through drama, bible study, prayer, quiet time, and much more. Most were eager to listen to the message we traveled many miles to share.***

***As for the youth, God lit a fire in them that still has not been quenched. We believe our mission trip wasn't so random after all. God touched our hearts on that trip and we will never be the same. Praise God for He is Mighty!!***
